THE REGENERATION OF LUTON

Luton is set to go through a major £1.2bn investment programme within the next 20 years, which will provide commercial, leisure and housing opportunities for developers whilst regenerating the town. A new light rail link between Luton Airport Parkway rail station and the airport is predicted to be the centrepiece of this development scheme. This new 24-hour automated line will allow passengers to travel from London to the Luton Airport in less than 30 minutes.

Meanwhile, a £110m redevelopment of the Luton airport is already under way, which includes expanding the terminal building and delivering a new 1,700-space multi-storey car park.

Other schemes unveiled by Luton Borough Council include multi-million-pound mixed-use developments. Luton Town Football Club owner 2020 Developments has set out plans to develop a new stadium, while Capital and Regional, the owners of shopping centre "The Mall" announced significant redevelopment plans.

Luton Borough Council chief executive Tony Holden said: "The investment framework presents a clear and coherent plan to the local community, partners and potential investors, and focuses attention on ensuring everything that we do is aimed at improving health, wellbeing and prosperity of our residents.

"The council has grasped its 'place-shaping' agenda and is delivering a comprehensive investment strategy of local, regional and national significance."

LIFE IN LUTON
